

Services Machinery and Trucks Ltd

Environmental Policy

Services Machinery and Trucks Ltd (SMT GB) markets Volvo Construction Equipment products together with K-Tec articulated hauler scraper boxes in Great Britain. It has eight strategically placed Customer Support Centres, a dedicated National Used Equipment Centre and a network of utility equipment dealers to ensure high quality customer support is maintained throughout the country.

SMT GB is aware that its business activities have an impact on the environment and is duly committed to minimising this impact and fulfilling all applicable compliance obligations. As such, it maintains an environmental management system, which is focused on continual improvement of environmental performance and is certified to the ISO 14001:2015 standard.

In line with the core value of 'environmental care', SMT GB is specifically committed to protecting the environment, preventing pollution and playing its part in addressing the threats of climate change and natural resource depletion through the following objectives:

- Reduce the intensity of energy use and associated emissions to air through energy efficiency and progressive substitution of fossil fuels with clean renewable energy sources.
- Decrease the intensity of transport fuel consumption and associated emissions to air from SMT GB fleet and business travel.
- Support customers in reducing their own environmental impact by increasing the adoption of fuel-efficient and low or zero emission machines
- Utilise available technologies and support to ensure optimal and efficient operation of machines by customers.
- Minimise waste, maximise recycling and avoid the use of landfill by applying the waste hierarchy.
- Support the circular economy by purchasing materials with recycled content, progressively eliminating single use plastics and ensuring recyclability at point of waste.
- Increase the refurbishment and re-sale of used machines and parts to extend the product lifecycle.
- Avoid any pollution of water and land through careful management of oils, fuels, chemicals and other polluting substances.
- Reduce the intensity of water use through water efficiency.
- Support local biodiversity by enhancing and managing wildlife habitat at SMT GB sites.
- Minimise noise, vibration and other potential sources of nuisance.
- Support the local communities within which SMT GB operates.

This environmental policy is reviewed annually, communicated to employees, contractors and visitors, and is available to interested parties.

Signed on behalf of SMT GB:

Nick Allen - Chief Executive Officer
