

Environmental Policy

Services Machinery and Trucks Ltd (SMT GB) is a supplier of premium brand specialist machinery and construction equipment, as well as parts and optimisation services. It operates to maintain high standards of customer support across Great Britain via eight Customer Support Centres, a dedicated Remarketing Centre and a network of independent sub-dealers.

SMT GB is aware that its business activities impact on the environment, and is fully committed to minimising this impact and fulfilling applicable compliance obligations, including environmental permit requirements. To achieve this, SMT GB maintains an environmental and technical competence management system that is certified to ISO 14001 and which serves to deliver compliance and continual environmental performance improvement.

SMT GB is specifically committed to protecting the environment and preventing pollution through the following objectives to:

- Avoid pollution of water and land through careful management of oils, fuels, chemicals and other potentially polluting substances.
- Address climate change by progressively reducing dependency on fossil fuels and lowering greenhouse gas emissions in pursuit of achieving Net Zero by 2050.
- Reduce the intensity of energy demand and emissions to air through energy efficiency and progressive substitution of fossil fuels with clean energy sources.
- Use water efficiently by avoiding wastage and repairing any identified leaks.
- Support customers to reduce their own environmental impact by providing energy-efficient and low/zero emission products and optimisation services to enhance operational efficiency.
- Offer used equipment, used parts and machine rebuilds to extend product life cycle.
- Use natural resources efficiently, minimise waste arisings and ensure correct waste segregation to maximise recycling in line with the Waste Hierarchy.
- Promote and support the Circular Economy by purchasing materials and products with recycled content, progressively eliminating single use products and ensuring recyclability at point of waste generation.
- Promote local biodiversity by enhancing and managing wildlife habitat.
- Support local communities and minimise sources of potential nuisance.

This policy is reviewed annually and communicated to employees, contractors and visitors, and is available to interested parties.

Signed on behalf of SMT GB:

Phil Battle – Managing Director (Great Britain)
